CLERK: 28 ayes, 0 nays on adoption of the motion to advance 832A, Mr. President.

SENATOR CLARK: The bill is advanced. Do you have anything to read in?

CLERK: Just one item, Mr. President. Senator Wesely has amendments to 1124 to be printed. (See pages 1844-46 of the Legislative Journal.)

SENATOR CLARK: Senator Nichol, if you would like to adjourn us sine die.

SPEAKER NICHOL: Mr. President, I certainly would. After today I certainly would. Mr. President and members, thank you again for a week. I am a little disappointed in the last couple of days the amount that we accomplished but then I guess we can't always have it the way we want. We are running a little behind, especially on your priority bills. So we are really going to have to get with it Monday. And, of course, Tuesday morning we start at eight o'clock, those of you who volunteered to come, and the rest of you at nine-thirty. And the first long bill should be over with approximately at nine-thirty and we will notify you that are in your offices that the bill is about through. So be ready to really give it our all next week because that is it and we will have to stick pretty much to the priority bills and the Final Reading on appropriation bills so we get them over to the Governor in time. And if we will really get with it the next few days, I think you will be pretty happy with it
